

**BENEFITS:**

- Lasts longer in everyday devices
- Dependable performance

**APPLICATIONS BEST FOR:**

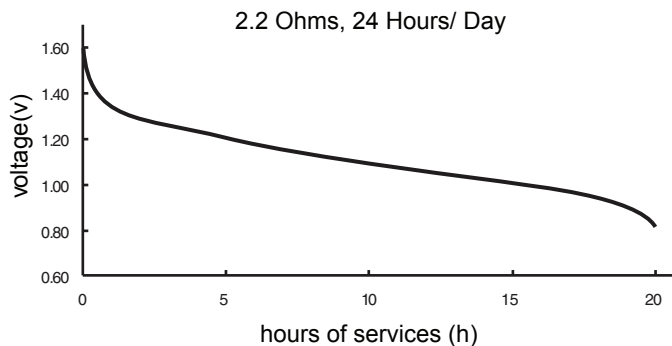

**OTHER DETAILS:**

- Mercury Free Alkaline Manganese chemistry
- Cylindrical cell type
- Average weight: 135g

**TYPICAL SERVICE LIFE:**

| Discharge Resistance | Discharge Condition | End Point Voltage | Service Life |
|----------------------|---------------------|-------------------|--------------|
| 2.2 Ohms             | 24 Hrs/Day          | 0.9V              | 19 Hrs       |

At 20°C±2°C within 30 days of manufacture

- GP Super Alkaline Battery
- D size
- 1.5 Volts
